

# Electronics-computer Engineer

Belgium (Louvain-la-Neuve) – Contrat : Permanent

To complete our team, we are actively searching for an Electronics-computer Engineer.

## YOUR MISSION

The electronics-computer engineer will be involved in the development of electronic control boards for high-power and high precision systems in the medical, aerospace and precision industries.

## YOUR PROFILE

- Experience and knowledge of C / C ++, Python, Qt, HTML, CSS, JavaScript
- Knowledge of Linux
- Good knowledge of French and English
- Excellent software quality assurance
- User oriented
- Team player

## OUR OFFER

Intégrer une société en pleine croissance où les valeurs humaines s'intègrent à la reconnaissance des compétences technologiques :

- A varied and exciting function in a dynamic, friendly and international environment, focused on quality of work and collaboration
- Full time contract, employee or freelance.
- A competitive salary (depending on your experience and performance) with extralegal benefits

**Are you the Electronics-computer Engineer we are searching for? If you are, then send your CV to [info@jema.be](mailto:info@jema.be).**
